What made you join the program and chose Caroline?

I was impressed with the webinar Caroline held on writing a winning resume. I followed her advice and the achieved the desired result.

Describe in your own words your situation before the program?

I had completed my project at the end of May and had been looking for my next role. I was not gaining any traction either by myself or through two recruitment agencies and felt that this was the best time to focus on getting everything up to date.

How have things changed or improved since we've been working together?

I feel like I am getting positioned in the right roles and have just been forward for a position which is triple the salary I earned this time last year!! It is in line with what Caroline has said I should be earning.

Can you describe your biggest aha moment?

My one on one with Caroline was definitely my biggest aha moment as I was still underselling myself and once I started looking for roles in line with Caroline's recommendation I realised I could do the job.

What would you tell someone who's hesitant to work with Caroline?

I have recommended Caroline to a number of professional LinkedIn groups and have used my story that in less than a year I have almost tripled my salary. I have also recommended that they sign up for a session with Caroline to ascertain if she is the right career coach for the individual.
